ENROLL IN AUTO-PAY

Sign up for auto-pay today! Simplify your finances, avoid late fees, and enjoy peace of mind. Payments are pulled from a checking or savings account on the 20th of the month for the amount due. Fill out the auto-pay form on the back of your electric bill or find the form at sre. coop/ways-pay-your-bill and click, "Automatic Funds Transfer".

JOINT MEMBERSHIP - IS IT RIGHT FOR YOU?

Did you know? SREC members can have a single or joint membership. A joint membership has two names listed on the account and bill. In most cases, this is a spouse. A joint membership allows both people to inquire about account information or make changes to the service.

Members who would like to add a joint member to their existing account should complete a Membership Application and a Membership Change Agreement signed by both members in front of a notary. The Membership Change Agreement will also add the new joint member to the capital credits account. Members interested in making the switch should call or e-mail our office for the forms. There is no fee for this change.

Join your fellow members and start the New Year with these simple resolutions! Call us at 800-236-2141. We look forward to serving you in the new year!

RIGHT-OF-WAY MAINTENANCE NOTES

Zielie's Tree Service will be trimming the Hurricane Substation in Grant County during the month of January.

On a daily basis, SREC employees and contractors may be working throughout the area, and at times on your property, to operate and maintain the electric system and our rights-of-ways.

If you have questions, please contact us at 800-236-2141.

KEEP SNOW CLEAR OF ELECTRICAL EQUIPMENT

Our crews and staff take great care while on the job, but you can assist us by keeping paths to meters, transformers, and other co-op equipment free of snow and ice. During this season, we kindly ask that you avoid piling snow, firewood, or other obstacles near electrical equipment. Additionally, please ensure young children do not play on or around these areas. Keeping transformers visible and accessible allows our crews to work safely and restore power more efficiently. Your cooperation helps us serve you better!

Efficiency Tip

Seal in comfort and savings with weatherstripping. Check for air leaks around your windows and doors and install weatherstripping where needed. Prevent drafts to reduce energy loss and lower your heating and cooling bills, improving energy efficiency year-round.
